PROFESSIONAL SUMMARY

Finance-trained Data Analyst with a Banking & Finance background and hands-on experience using Excel, SQL, Power BI, and Tableau to transform raw data into actionable business insights. Built and documented analytics projects spanning credit risk, sales and profitability, retail performance, and fuel-cost analysis, including a CNG vs PMS model that quantified significant potential cost savings following Nigeria's 2023 fuel subsidy removal. Skilled in data cleaning, analysis, business intelligence, dashboard development, and translating analytical findings into practical recommendations. Particularly interested in financial services, fintech, credit risk, and business intelligence

SKILLS

Technical Skills: Excel (XLOOKUP, Pivot Tables, Power Query | SQL | Power BI | Tableau | Data Cleaning | Data Visualization | Data Manipulation

EDUCATION

Infrastructure University Kuala Lumpur (IUKL) | 2023

BSc Business Administration (Banking & Finance)

DATA ANALYTICS PROJECTS

- Credit Risk & Loan Default Analysis | Excel, Power Query, Data Modelling**
Analyzed loan portfolio data to assess the relationship between borrower debt burden and default risk, using Excel to segment borrowers, calculate default rates, and identify high-risk segments. Developed an interactive dashboard and translated findings into operational recommendations for risk monitoring and lending thresholds.
- Retail Revenue Analysis | Excel, Power Query**
Cleaned and modelled 100K+ multi-table transactions using Excel and Power Query and developed a pivot-based dashboard to evaluate revenue performance. Identified prolonged flat growth from 2014–2020 and product and customer concentration as key constraints on revenue scalability.
- CNG vs PMS Fuel Cost Analysis | SQL, Tableau**
Built a cost-efficiency model comparing CNG and PMS for commercial vehicles in Nigeria, using SQL and Tableau to calculate fuel cost per kilometre, monthly savings, and payback periods. Identified approximately 60–70% potential fuel-cost savings and demonstrated faster investment recovery for high-mileage commercial vehicles.
- Sales Performance & Profitability Analysis | SQL, Tableau**
Cleaned and validated transactional sales data in MySQL, performed revenue and margin analysis, and

developed an interactive Tableau dashboard. Identified high-margin products, revenue concentration risks, and monthly sales trends to support product and sales decisions.

WORK EXPEREINCE

Marketing Intern | Part-Time | IUKL | 2023-2024

- Designed marketing flyers and promotional materials for outreach campaigns.
- Guided 100+ prospective students through application and admission processes.
- Prepared event proposals for institutional marketing and engagement programs.
- Supported digital marketing and student recruitment initiatives.

LEADERSHIP & VOLUNTEERING EXPERIENCE

- **President — Nigerian Student Association, IUKL | Apr 2024 – Apr 2025**
Led student association activities, coordinated initiatives with university stakeholders, managed executive team responsibilities, and supported student engagement and events.
- **Computer Skills Volunteer — Community Education Initiative | Ongoing**
Taught basic computer skills to primary-school pupils and underprivileged learners through practical sessions, adapting lessons to different levels of digital literacy.

CERTIFICATION

- From Excel to Power BI | 2023
- Data Analytics Cohort 9 | Ongoing
